

Use the electronic card file to record resident information once and to generate the reports you need more efficiently. Stop spending hours documenting information in multiple locations, sorting tray cards, and gathering data for care planning meetings. Simply print what you need when you need it. Think of the time you can redirect to direct resident care!

**Resident management features include:**

- Electronic card file.
- Resident-specific tray notes and messages.
- Dining room resident allergy report.
- Census reporting.
- Birthday lists.

## For Continuing Care Facilities

**GeriCard® overview**

Provide a simple and cost-effective method for implementing resident foodservice preferences. GeriCard can help you::

- Increase resident satisfaction.
- Ease state survey reporting.
- Strengthen overall efficiently.

		Totals:	1.0	1.0			

**Dietary management**

GeriCard provides disposable resident and meal-specific tray cards which give your trayline staff a clearly printed listing of resident likes, dislikes, allergies, and beverage preferences. You can expect an increase in trayline speed and a decrease in the number of complaints you receive from residents and their families.

**Clinical Tools**

Weight tracking tools allow six user-defined time intervals for weight gain/loss analysis. Resident admit, low, ideal, and high weight ranges (with information for percent changed) is available. Significant weight change alerts can be triggered at login to ensure timely care is given to your residents. Automatic BEE and BMI are available in GeriCard as well, saving your dietitian valuable time.

## GeriCard features

- Sanitary single-use tray cards
- Tracking of resident preferences and dislikes
- Allergy reporting
- Weight tracking
- Resident dietary calculations (BEE and BMI)
- Nourishment labels and check-off sheets

**Clinical features include:**

- Weight tracking.
- Significant weight change reporting.
- BEE and BMI calculations.

**Optional handheld for resident management**

Eliminate transcription errors and duplicate data entry with handheld software available for GeriCard\*. Handheld technology gives you the freedom to record changes in resident preferences, dislikes, and allergies – as well as in diet orders and weights – all while on the floor.

Simply place the handheld in its cradle to upload the information when you get back to your diet office.

**CBORD support**

CBORD offers software support 24 hours a day, seven days a week. This means that regardless of when you have a question, you can call the CBORD support team and receive immediate assistance.

**A CBORD briefing**

The CBORD Group provides more dietary systems than any other company in the industry. The reason is simple: CBORD knows what its customers want, and delivers it. Wherever you see the CBORD logo, you can feel confident that you have the very best dietary system available.

\*A GeriCard handheld interface is available at an additional charge.
