

Odyssey PCS™

Providing resident convenience and customer satisfaction, as well as data that furnishes your management team with valuable information, results in reduced administrative overhead and increased performance.

Resident Convenience and Satisfaction

Residents can easily make purchases throughout the facility and never have to worry about needing cash. Also, residents can see all transactions by date, time, location, etc. They can use their accounts to pay for meals, groceries, items at the C-store, the beauty salon, etc.

Odyssey PCS also offers residents different types of plans and payment structures. Declining balance accounts that are part of the monthly fee, charge accounts for certain resident groups, visitor meals, etc., are all included.

For Senior Living

Cashless Convenience with Odyssey PCS

Odyssey PCS™ (Privilege Control System) is designed to supply senior living facilities with various tools to track meal plans (number-of-meals programs and debit/charge) for residents, guests, and employees. The versatility of this program allows each community to structure offerings to residents and reports for management that result in better overall service.

The Process

Odyssey PCS manages a network of POS terminals, card readers, and multiple other devices distributed throughout the site. Odyssey PCS continuously processes transactions and requests for information over this network.

When a request is made, Odyssey PCS determines whether the debit, charge, meal plan, payroll deduction, or activity request is valid. The transaction is processed, and all pertinent accounts are automatically updated.

Why Odyssey PCS?

By implementing Odyssey PCS, your facility can use your existing resident and employee ID badge for several purposes.

Odyssey PCS offers

- **Declining balance, charge, or cash tenders**
- **Unlimited cardholders**
- **Patron message tools**
- **Easy report processing**
- **Tender/discount/restriction tables**
- **Batch functions capabilities**
- **Task scheduler**
- **A family account option**
- **Service period category options**
- **Optional web deposits**
